

SPOKE REFLECTORS

Installation and Operating Instructions

1. Introduction

Congratulations on purchasing your new product. You have chosen a high-quality item. This instruction manual is part of this product. It contains important information regarding safety, installation, and disposal. Please familiarise yourself with all operating and safety instructions before using the product. Use the product only as described and only for the stated areas of application. Hand over all documentation when passing the product on to third parties.

1.1 Intended Use

The product is designed to improve the visibility of bicycles in road traffic. It is suitable for spoke sizes of \varnothing 1.8 - 2.0 mm.

1.2 Scope of Delivery

36 spoke reflectors

2. Safety Instructions

RETAIN ALL SAFETY INSTRUCTIONS AND MANUALS FOR FUTURE REFERENCE!

- This product must not fall into the hands of small children!
- Observe the care instructions.
- The optical properties of the product may be impaired by strong cleaning agents or improper cleaning.

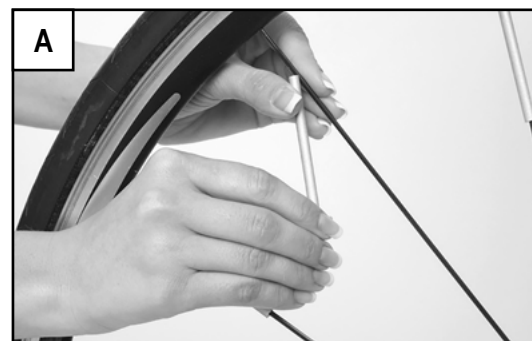

3. Installation

- Do not allow children to carry out the installation.
- Install the spoke reflectors on clean spokes.
- Attach one clip per spoke at a distance of 2-3 cm from the rim (see Fig. A).
- Position the clip at an angle and snap it onto the spoke (see Fig. A + B).
- For optimal reflection, align the slot of the clip facing against the direction of travel (towards the rear).

4. Approval

Tested and approved by the German Federal Motor Transport Authority – Certification mark K699

- The use of these reflectors in place of yellow plastic reflectors is permitted if all spokes on each wheel are fitted with clips.
- Lost clips must be replaced.
- Please check before each journey that all spokes are equipped with spoke reflectors.
- At least one clip with the certification number (K699) must be fitted per wheel.
